CAUTION

Anyone who uses the Dreamcast should read the operating manual for the software and console before operating them. A responsible adult should read these manuals together with any minors who will use the Dreamcast before the minor uses it.

HEALTH AND EPILEPSY WARNING

Some small number of people are susceptible to epileptic seizures or loss of consciousness when exposed to certain flashing lights or light patterns that they encounter in everyday life, such as those in certain television images or video games. These seizures or loss of consciousness may occur even if the person has never had an epileptic seizure.

If you or anyone in your family has ever had symptoms related to epilepsy when exposed to flashing lights, consult your doctor prior to using Sega Dreamcast.

In all cases, parents should monitor the use of video games by their children. If any player experiences dizziness, blurred vision, eye or muscle twitches, loss of consciousness, disorientation, any involuntary movement or convulsion, **IMMEDIATELY DISCONTINUE USE AND CONSULT YOUR DOCTOR BEFORE RESUMING PLAY.**

To reduce the possibility of such symptoms, the operator must follow these safety precautions at all times when using Dreamcast:

- Sit a minimum of 6.5 feet away from the television screen. This should be as far as the length of the controller cable.
- Do not play if you are tired or have not had much sleep.
- Make sure that the room in which you are playing has all the lights on and is well lit.
- Stop playing video games for at least ten to twenty minutes per hour. This will rest your eyes, neck, arms and fingers so that you can continue comfortably playing the game in the future.

OPERATING PRECAUTIONS

To prevent personal injury, property damage or malfunction:

- Before removing disc, be sure it has stopped spinning.
- The Sega Dreamcast GD-ROM disc is intended for use exclusively on the Sega Dreamcast video game system. Do not use this disc in anything other than a Dreamcast console, especially not in a CD player.
- Do not allow fingerprints or dirt on either side of the disc.
- Avoid bending the disc. Do not touch, smudge or scratch its surface.
- Do not modify or enlarge the center hole of the disc or use a disc that is cracked, modified or repaired with adhesive tape.
- Do not write on or apply anything to either side of the disc.
- Store the disc in its original case and do not expose it to high temperature and humidity.
- Do not leave the disc in direct sunlight or near a radiator or other source of heat.
- Use lens cleaner and a soft dry cloth to clean disc, wiping gently from the center to the edge. Never use chemicals such as benzene and paint thinner to clean disc.

PROJECTION TELEVISION WARNING

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

ChuChu Rocket! is a memory card compatible game (Visual Memory Unit (VMU) sold separately). To save files:
Option Settings and Game Results:3 Blocks
Edited Puzzles (1 file):3 Blocks (Max:25)
Downloaded Puzzles (1 file):3 Blocks (Max:25)

Never turn OFF the Dreamcast power, remove the memory card or disconnect the controller during saving or loading.

In a far away time on a far away planet, there is a Space Port. This Space Port is inhabited by thousands of little ChuChus.

ChuChus aren't ordinary mice. We're space mice!

The things that ChuChus detest more than anything else are KapuKapus.

KapuKapus aren't ordinary cats. We're space cats!

The ChuChus lived happily until one day, when...
The Space Port became infested with KapuKapus.

Oh no! Look at all those cats!

The ChuChus must escape in rockets.

What should we do?

Which rocket should we go in?

The fate of the ChuChus is in your hands! The "ChuChu Rocket!" launch countdown has started!

In a state of panic, the ChuChus are running around at high speed. The only order in the chaos is that they turn right when they hit a wall. The ChuChus want to get away from the KapuKapus – quickly. But they just don't know which rocket to board.

Rockets are the only way to escape the Space Port. But there's only enough fuel for one rocket!

Space cats. They have huge, scary mouths, and voracious appetites. They are truly terrifying creatures. Like ChuChus, they only turn to the right. KapuKapus don't even realize how much trouble they cause. That's why they're really bad cats.

*The following characters do not appear during game play.

Chuih is a ChuChu who really knows how to party.
He's the pilot of the Blue ChuChu Rocket.

ChuBei is a careless ChuChu who feigns ignorance.
He's the pilot of the Yellow ChuChu Rocket.

ChuPea is a moody daydreamer.
She's the pilot of the Red ChuChu Rocket.

ChuBach is a steady and reliable ChuChu who does things at his own pace.
He's the pilot of the Green ChuChu Rocket.

This is a one to four player game. Connect either Dreamcast Controllers or Arcade Sticks to the Control Ports, starting with Port A. Connect in order: A, B, C, D, according to the number of players.

These are the basic controls. The controls for PUZZLE and PUZZLE EDIT are slightly different, so don't forget to check them too. (PUZZLE → P.15, PUZZLE EDIT → P.16)

Dreamcast Controller

Make sure that you insert the Jump Pack (sold separately) into Expansion Socket 2 of the controller.

Arcade Stick

* To return to the Title Screen at any point during the game, simultaneously press and hold the **A**, **B**, **X**, **Y** and the Start Buttons.

* Do not touch the Analog Thumb Pad, or the Triggers while turning the Dreamcast power ON. Doing so may disrupt the controller initialization procedure and result in malfunction.

Place Arrow Panels!

Move your cursor with either the Analog Thumb Pad or the D-Pad. Press the **Y**, **A**, **X** and **B** Buttons to place an Arrow Panel (up, down, left, right).

Place panels to guide the path of the ChuChus and KapuKapus.

← = Press the **X** Button

↑ = Press the **Y** Button

↓ = Press the **A** Button

→ = Press the **B** Button

Delete an Arrow Panel!

You can place up to 3 Arrow Panels on the stage.

When you place a 4th Arrow Panel, the first Arrow Panel will vanish.

Be forewarned, because the Arrow Panels will fade away over time.

Messages!

You can listen to certain messages during 4-PLAYER BATTLE and TEAM BATTLE gameplay. Press Trigger **R** to gloat when you're winning, and press Trigger **L** to taunt when you're losing. If you are using the Arcade Stick, then press either the **C** or **Z** Buttons. Hold down the Triggers and the messages will change.

Basic Rules

Use  to lead  into your own  !

Arrow Panels **ChuChus** **Rocket**

How do ChuChus Move?

The way that ChuChus move is very simple. Try and read the movements of the ChuChus and place Arrow Panels to guide them. KapuKapus move in the same way.

2 If they bump into a wall, they turn right

1 ChuChus run in a straight line

3 They turn in the direction of an Arrow Panel

Different sorts of ChuChus!

You will sometimes see strange ChuChus. Maybe you can turn the tables of the game by leading one of them into your own Rocket...

If you guide a "?" red ChuChu into your Rocket, then...

The roulette wheel will spin and there will be a new game "event"!

If you guide a "50" yellow ChuChu into your Rocket, then...

You will get 50 ChuChus in one shot!

Look out for

KapuKapus

! Lead them into your opponents'

Rockets

KapuKapu Characteristics!

KapuKapus eat ChuChus!
And what's worse, they'll eat one third of all the ChuChus that you have collected if one of them gets into your Rocket.
So, keep the KapuKapus out of your own Rocket, while leading them into your opponents' Rockets.

If a KapuKapu enters a Rocket...

One-third of collected ChuChus are lost
(E.g. 30 ChuChus = 10 ChuChus lost).

Arrow Panels can break!

If a KapuKapu bumps head-on into an Arrow Panel once, it will shrink a little.
If a KapuKapu bumps head-on into an Arrow Panel two times, it will vanish.

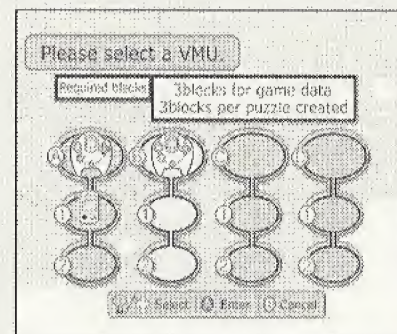

One bump from a KapuKapu and an Arrow Panel will shrink...

Two bumps from a KapuKapu and an Arrow Panel will vanish.
